The Service Provider is under no obligation to continue monthly swimming pool maintenance on accounts which are more than 30 days past due and chooses to do so only at the Service Providers discretion.

Cleaning System Your pool must have a pump & filter system that provides sufficient suction and plumbing in order to be cleaned properly. Additional \$25.00 weekly if we need to use our pump.

Maintaining Proper Water Level It is the Customer's responsibility to maintain proper water level. If water is low on service day, equipment will be turned off and a service slip will be left advising the customer to add water. Failure to maintain proper water level may result in serious damage to pool equipment.

Excessive Debris Excessive debris from certain landscaping may cause chemical imbalances. It is the Customer's responsibility to maintain the landscaping to minimize the effect on the water chemistry. In the event of excessive debris, an additional service charge may apply. Please note: although we do everything to keep your pool sparkling every day, some landscaping may make this impossible. Please discuss any concerns you may have with our service technicians.

Dogs and Other Pets We at PPS, feel that our pets are a part of our family and know that our customers feel the same about their pets. It is the Customer's responsibility to see that their pets are properly arranged for ahead of time. If you do not have a separate

fenced off area of the yard for your dogs, please see that they are either in the house or in their kennel/crate on your service day(s).

Bees, Wasps, Snakes and Other Pests We at PPS, are concerned with the safety of both our employees, our customers and others. Some people are allergic to bee or wasp stings and snake antivenin is very expensive. Should your service technician come in contact with bees, snakes or other pests, they will report the situation to the Field Manager. The Field Manager will contact you, making you aware of the situation and asking that it be corrected prior to your service technician's next visit. Please contact us prior to your service technician's next visit to let us know if he can continue to come or if more time is needed to correct the situation.

Staying In Touch Customer agrees to provide PPS, with adequate contact information (land line phone number, cell phone number, work phone number, e-mail address) where he/she can best be reached during the day. If Customer cannot be reached in a timely manner, Customer agrees to accept any decision PPS makes in regard to maintaining Customer's swimming pool and/or other water features.

Liability PPS agrees to defend, indemnify, and hold Customer harmless from any claims, damages (including property damage and loss of use of such property), losses, fines, or penalties (including related costs, expenses and reasonable attorney fees) that may arise in whole or part from services provided by PPS to Customer. This includes but is not limited to claims, demands, damages, losses, fines, or penalties for injuries to persons or damage to property, including theft, resulting from PPS's acts or omissions or the acts or omissions of those persons furnished by PPS.

PPS, its employees, and/or independent contractors, agrees to provide swimming pool maintenance in a responsible manner. PPS will not be responsible for any damage to property due to acts of nature, fire, vandalism, misuse, or abuse. PPS is not responsible for the performance of any chemicals, filtration systems and/or equipment. Customer should be aware of normal deterioration of equipment that occurs over time due to exposure to chemicals and sunlight. Due to these factors, PPS recommends other annual services (e.g., Annual tune-up of equipment, filter cleaning) above normal maintenance. The Customer is responsible for maintaining the correct water level and keeping trees and plants trimmed away from the pool/spa and equipment and maintaining equipment by authorizing annual service to equipment. PPS is not responsible for any damages or deterioration caused by failure of Customer to perform other services recommended by PPS or by failure of Customer to properly maintain pool and equipment between visits.

Under the terms of this Agreement, PPS, will not be held responsible for any staining of plaster.

Since plaster is composed of natural materials, a certain amount of shading, staining, and color variation is to be expected. Different forms of staining do occur in all pools and with proper chemistry can be held to a minimum. It is the Customer's responsibility to assure that all gates are operating properly. Service technician assumes no responsibility for maintaining fencing or gates at Customer's property. It is the Customer's responsibility to ensure the swimming pool and any enclosures are up to city, state and/or federal code.

Access To Your Pool It is imperative that we have access to your swimming pool in order to provide the swimming pool maintenance that has been agreed to, we will make every effort to service your pool on the same day or days each week. If for some reason, such as illness, automobile accident, truck has broken down or family emergency, your service technician is not able to service you pool, service will be provided by another service technician. The timing of these situations does not always allow for us to let you know ahead of time. If you currently have any locked gates, it is preferred that a combination lock be used. If a key lock is used, PPS will need to be provided with two working keys for each lock. If you add a lock after this Agreement has been executed, please provide PPS with the combination or two working keys prior to your next service day. If we arrive on our regular scheduled day and we are not able to access the pool there will be no credit for this missed visit. If we must return before the next scheduled visit, a \$25 return trip fee will be assessed. **Pool Covers, solar blankets and/or solar disks must be removed by Customer on, or prior to, service days.** Failure to do so may result in additional fees.
